

# SEEKING PARTICIPANTS

**A Multiple Case Study of the Students  
Perceptions of Mental Health at Three  
Maine Community Colleges**

## **Purpose of the Study**

The purpose of the proposed multiple case study is to develop an understanding of community college students perceptions of mental health services. The practices of community college currently enrolled students expressed in this study will ideally supply information that will further allow practitioners, administration, or higher education interventionists to develop improved policies and practices that address the mental health of individuals at the student levels amongst community colleges.

## **Participant Criteria**

- be at least 18 years of age
- currently enrolled in one of three specific community colleges in Maine
- enrolled in the same community college for one year
- are aware of student mental health issues
- are willing to volunteer for participation in a 60-90 minute in-person interview

## **For questions or to volunteer:**
